

Every breath you take - Lyrics

Every breath you take
Every move you make
Every flu outbreak
Every prone you get
I'll be assisting you

Every single day
In every Intensive Care
Every trigger sensed
Double or reversed
I'll be assisting you

Oh can't you see... You respond to PEEP
Though your right heart aches
With every increase I make

Even if you are trached
And you need a break
Every time you rest
Every wean you fail
I'll be assisting you

Since you are here I've been lost without a trace
I called the RT cause I cannot ventilate
I look around if Brochard's in the place
I pushed the Roc and compliance starts to raise
I will recruit MORE baby lung with PEEP

Oh can't you see... You respond to PEEP
Though your right heart aches
With every increase I make.
